Security & Compliance Pack for Legion Capital

Prepared by Brevis Pay for vendor due diligence · 1 September 2026 (pen test status updated 6 October 2026)

§1 SOC 2 Type II

Latest report period: **1 August 2024 to 31 July 2025**, unqualified opinion. The next report (period to 31 July 2026) is in progress; no date confirmed.

§2 PCI DSS

PCI DSS v4.0 Attestation of Compliance valid until **30 June 2027**.

§3 Sub-processors

Sub-processor	Location	Purpose	Data received
Google Cloud (Mumbai region)	India	Hosting	All payment data
Sentrix Risk Pte Ltd	**Singapore**	Real-time fraud scoring	**Tokenised card number, card BIN, device data**
MsgRelay India	India	SMS notifications	Phone numbers

3.2 **India-only option:** customers can order the India-only hosting add-on, which moves fraud scoring to Brevis's Mumbai region so no data leaves India. Switch-on takes **up to 3 weeks** from order.

§4 Penetration testing

External test completed June 2026. Findings: 0 critical, **1 high**, 4 medium, 6 low. The high finding (**missing rate limiting on the refund API**) has been **open since 20 August 2026**; fix scheduled for Q4 2026. All medium findings closed.

§5 Incident history

28 October 2025: a misconfigured log storage bucket exposed merchant contact details (names, emails, phone numbers). **No card data** was exposed. Reported to CERT-In on 6 November 2025 (**9 days later**).

§6 Access and data protection

- MFA and single sign-on **enforced** for all merchant dashboard users.
- Supports RBI card-on-file tokenisation.
- Encryption: AES-256 at rest, TLS 1.2+ in transit.

Legion Capital, Arvanta Payments, Brevis Pay, Sentrix Risk, Vireo Finance, Coral Bank and Tamra Bank are fictional.
